## A Better Life

With the invention of the electric light, Mr. Edison ushered into existence a new concept. The concept of living better through electricity. We call it "living better-electrically."

Customers of West Texas Utilities Company have discovered the new concept of a better life through electricity. We are constantly on the lookout for new ways to serve you, the customer better.

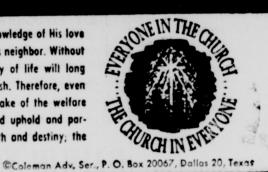

THE HARVEST

The harvest each year should remind us of God's great promise to man. This promise was made right after the great flood, from which only Noah and his Ark survived. Just prior to the flood, all men lived so evilly that it grieved the Lord that he had made man of the earth.

for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Live Better ...

Electrically\_\_\_

"While the earth remaineth, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease." Genesis 8:22

Today the churches stand as a bulwark against evil. Attend church regularly so that never again would man grieve the Lord as before.

The Church is God's appointed agency in this world for spreading the knowledge of His love

Hamlin

Pipers picked up two first downs on third down situations on pass plays from halfback Robert Pearce to end Mike Shivers good for 12 and 19 yards. A three yard gain by Compton put them on the Winters 28, but disaster struck as Winters swiped the first five Hamlin passes.

Winters gained three yards in two plays and then quick kicked for 44 yards to the Hamlin 31. Three ground plays netted the Pipers six yards and Compton punted 34 yards with Winters taking over on their own 29.

The Blizzards moved the 71 yards in 10 plays with the two big gainers in the drive being nade by quarterback Denny Aldridge, one a 26 yarder and the second a nine yard scoring play. Aldridge passed to end Mike Mitchell for the two points and the Blizzards owned a 14 point lead.

Moving into a spread formation, the Pipers bounced back to score in three plays with Pearce passing to Shivers for 13 yards, then getting set back four yards trying to get off a pass and then finding halfback Allen Cumbie in the open for a 56 yard touchdown pass. The two point try failed and the Pipers trailed by eight points.

The Pipers got the ball back on a pass interception on their own 22, but after gaining a first down on the 36 their drive bogged down with two incomplete passes and Compton punted again with Winters taking over on their 22. From that point the Blizzards ran out the clock to finish the first

and kickoff and moved down to alty and a five yard loss put down pass play was stopped on took over. The Pipers gained 2 first downs out to the 33 but

Taking over on the Hamlin 34, the Blizzards took seven plays to cover the 34 yards against the Pipers, Grissom Scoring play. Aldridge passed to end Donald Parker for the two points.

The two teams exchanged punts and then the Pipers lost the ball on a pass interception with Winters taking over on the Hamlin 32. A 15 yard penalty against the Blizzards killed their scoring threat as their fourth down pass play was short four yards.

Taking over on the 27 the Pipers completed two passes for a first down on the 43, but on second down the Blizzards swiped another pass with Aldridge returning it 34 yards to the Piper 37. The Blizzards moved to the Piper 24 yard line from where they tried a field goal that fell short.

Taking over on their 20 the Pipers picked up a first down on the 32 only to have the Blizother pass interception to end

## Better Life

With the invention of the electric light, Mr. Edison ushered into existence a new concept. The concept of living better through electricity. We call it "living better-electrically."

Customers of West Texas Utilities Company have discovered the new concept of a better life through electricity. We are constantly on the lookout for new ways to serve you, the customer better.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

# BAILEY'S DEPT. STORE

Hamlin, Texas

A SELL-OUT - A GET-OUT - A CLOSE-OUT!

The Midwest Electric Cooperative has been areas now have electricity. Some people to get out", which only goes to prove that

These people reckon without the need for heavier lines, larger poles, bigger transformers and improved facilities to serve the ever increasing loads in rural areas . . . areas developed by the Midwest Electric Cooperative

The challenge for Midwest Electric is still a great one. They will meet this challenge as they have in the past with an efficient, dependable, economical electric service that will stay ahead of demand. Theirs is a continuing job of service to their member-owners and to their community.
